

Solar Rescue Charger

The Solar Rescue Charger is a portable, rugged, solar-compatible power system that supplies a 24V power source to a remote solar power kit. The sturdy aluminum case is built to withstand all weather elements. The system includes an AC input for 120/240VAC and outputs 24VDC over a weatherproof connector to charge the battery in your solar kit.

FEATURES

- High-quality charge controller
- Easy to use, weatherproof connections
- Rugged plastic enclosure
- AC charging

PRODUCT BENEFITS

- 24VDC compatibility ensures maximum efficiency
- Quick setup time
- Modular design gives added flexibility
- Compatible with most Specto solar kits
- Ideal for short-term charging when battery power is at a minimum

TECHNICAL SPECIFICATIONS

Size:	3.4" x 8.3" x 2.4"
Case Material:	Aluminum
Case Weight:	4lbs
DC Output Cable:	CNLinko Quick Connect
Rated Power:	300W

AC Input Cable:	NEMA 5-15 Plug
Ingress Protection:	IP67
Power Input:	100-240VAC 50/60Hz
Power Output:	Regulated 24VDC
