

# Rail Clip “L-Bar” Monitoring Prism Assembly – Product Summary Sheet

The Rail Clip “L-Bar” Prism Assembly provides high performance and its durable design is easy to install.

The Rail Clip is constructed of aluminum and includes Hex-screws to make rail mounting easy.

The “L-Bar” assembly is constructed of anodized aircraft-grade aluminum and is hermetically sealed to provide maximum performance in adverse weather conditions. The versatile design provides low cost per monitored point.

## Features

- 25.4mm diameter prism, 19.8mm height
- Accuracy: 5 arc seconds
- L-bracket has 8mm hex bolt to adjust angle & a 10mm hole for mounting
- Absolute Offset/Constant (Topcon & others): -25.4
- Prism Offset/Constant (Leica): +8.92mm
- Range 1000m (3000ft)
- Prism surface finish: 60-40
- Reflectivity: 95%
